Why work with HPN Global & our Preferred DMC Partners:

- At each DMC, we have a dedicated Single Point of Contact (SPC), which allows for a greater level of support and accountability. Utilizing HPN Meeting Services in conjunction with our Preferred DMCs gives you the added value of HPN's volume and long standing relationships. This support allows for much more than program-by-program but annually within DMC brands to strengthen the value of opportunities.
- When planning hits a speed bump, pricing discrepancy, or there is a need for additional options, HPN is in your corner to assist you.
- Our HPN DMC and Supplier Relations team have eyes on all opportunities, provide cost saving strategies, and additional suppliers to align with the scope of needs. They are an impactful resource and layer to your program, and you as the planner.
